# The livable city of tomorrow is...

We will discuss along five key topics

## Communicative

- Creating spaces for citizens to (re-)connect with each other
- 
- Fostering a sense of belonging through inclusive urban planning
- 
- Empowering structurally weak urban neighborhoods

## Healthy

- Providing sustainable alternatives to conventional means of transport
- 
- Reducing CO2-emissions and making green mobility a reality
- 
- Optimizing waste management in urban environments

## Resilient

- Strengthening public resources to respond to adverse events
- 
- Creating measures to address and prevent radicalization and segregation
- 
- Enabling harmonious coexistence in socially diverse neighborhoods

## Connective

- Improving strategies and capabilities for urban e-governance
- 
- Co-creating city administration
- 
- Fostering digital innovation and centers for creativity within the city

## Inclusive

- Making life affordable for all citizens
- 
- Creating successful integration policies
- 
- Providing a diversity-embracing environment
